Professional Summary

Software Engineering undergraduate with hands-on experience building full-stack web applications, backend APIs, frontend interfaces, and developer tools. Skilled in React, TypeScript, FastAPI, Node.js, PostgreSQL/Supabase, Git, Docker, and REST API development. Interested in clean code, debugging, testing, secure development, and building real-life software in collaborative engineering teams.

Education

Bachelor of Computer Science - Software Engineering Major

Edith Cowan University

Final Year Student | Expected Coursework Completion: November 2026 | Expected Graduation: 2027

- **Relevant Coursework:** Data Structures, OOP, Database Systems, Software Engineering, Software Testing, Software Architecture, Computer Security.

Technical Skills

- **Programming Languages:** JavaScript, TypeScript, Python, Java, C#, SQL
- **Frontend Development:** React, Next.js, HTML, CSS, Vite, Responsive UI Development
- **Backend Development:** FastAPI, Node.js, Express.js, REST APIs, API Integration
- **Databases:** PostgreSQL, Supabase, Firebase
- **Software Engineering:** Object-Oriented Programming, Data Structures, Debugging, Testing Basics, Clean Code, Git-based Workflow, Technical Documentation
- **Tools & Platforms:** Git, GitHub, Docker, Docker Compose, Postman, VS Code, Linux, Windows
- **Cloud & Deployment Exposure:** AWS Amplify, Render, Vercel, Cloudflare, GitHub Actions

Projects

VoltCode - IDE Shell

Tauri | Rust | React | TypeScript | Monaco Editor | Vite | Git | Docker | Gemini API

Built a lightweight web/desktop IDE shell for workspace navigation, file editing, command execution, Git workflows, and AI-assisted coding support.

- Designed the IDE layout with workspace launcher, editor tabs, Monaco editor, and focused panels for Explorer, Search, Run, AI, and Git.
- Built reusable UI and host abstraction layers to support both browser-safe web usage and Tauri desktop behavior.
- Organized the project as a pnpm monorepo and added validation through type checks, web/desktop builds, Docker build flow, and documentation.

CourseGrid LMS - Learning Management System

React | TypeScript | FastAPI | PostgreSQL | Docker | GitHub Actions

Built a full-stack Learning Management System prototype focused on course management, role-based workflows, assignments, grading, approvals, analytics, and system health checks.

- Developed frontend and backend workflows for authentication, dashboards, user management, courses, submissions, grading, and analytics.
- Designed REST API interactions between the React frontend, FastAPI backend, and PostgreSQL database.
- Used Docker Compose and GitHub Actions for repeatable setup, build validation, and Docker image publishing.

MediConnect - Healthcare Management Platform

FastAPI | React | PostgreSQL/Supabase | Docker | Cloud Deployment

Worked on a multi-role healthcare platform supporting patients, doctors, hospital administrators, pharmacists, and administrative users.

- Developed backend API workflows using FastAPI with PostgreSQL/Supabase database integration.
- Used Docker-based project setup and tested deployment workflows using Render and Vercel, troubleshooting routing, environment variable, hosting, and API connectivity issues.

Diagramify Mini - Diagram Editor

React | PlantUML | SVG Rendering | AWS Amplify

Built and deployed a web-based diagram editor for creating, previewing, saving, renaming, deleting, and reopening PlantUML diagrams.

- Implemented dashboard and editor workflows with SVG rendering, diagram preview, project save/update behavior, and local workspace storage.
- Deployed the application using AWS Amplify, gaining hands-on exposure to cloud-hosted frontend deployment.

Additional Technical Experience

- Used Git, GitHub, environment variables, API URLs, Docker configuration, and deployment troubleshooting across multiple software projects.
- Comfortable writing setup guides, architecture notes, API flow documentation, and build/deployment notes.

Soft Skills

Problem Solving, Fast Learning, Debugging, Team Collaboration, Clear Communication, Ownership, Integrity

Languages

English - Professional Working Proficiency | Sinhala - Native / Fluent
